

Session 2A
Molecular Biology

Chairperson:
Location: tbd

Presentation	Presenter	College/University	Title
2A.1 9:00am	Stephanie Lawry	Lawrence University	Regulation of retinal biosynthesis in Halobacterium Salinarum
2A.2 9:15am	Elizabeth Wanous	St. Olaf College	Comparison of Autoantibody Response to Native and Bacteria- generated Antigens
2A.3 9:30am	Syed Zaheer	University of Chicago	Investigating RNA Thermostability
2A.4 9:45am	James Antony	Lawrence University	A possible role for NFN:B in Biomphalaria glabrata

Session 2B
Genetics

Chairperson:
Location: tbd

2B.1 10:15am	Nathan Goodsen- Gregg	Lawrence University	Updating the Ames Test Teaching Lab to Connect Classical and Molecular Genetic Concepts
2B.2 10:30am	Emil Mellgren	Macalester College	Genome-Wide Analysis of Sleeping Beauty (SB), PiggyBac And Tol2 Transposon Mediated Integration
2B.3 10:45am	Fida Abuisneineh	University of Chicago	The Role of the Nuclear Lamina in Gene Regulation
